

YF LABS STUDIO

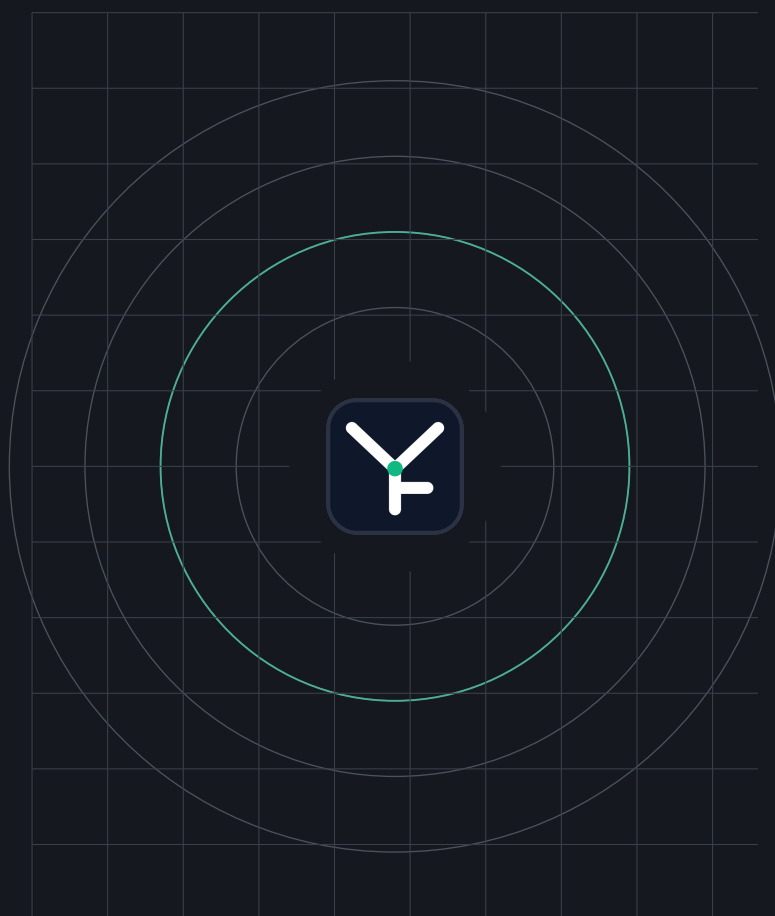

DIGITAL PRODUCTS / SOFTWARE ENGINEERING

YF LABS STUDIO

From Idea to Ship.

Digital products, built with purpose.

Thoughtful web experiences,
full-stack workflows, and
developer tools.

Services & technical focus

Practical engineering for digital products, workflows, and developer productivity.

01

WEB APPLICATIONS

Web application development

Responsive websites, full-stack portals, and interactive interfaces built around maintainable frontend patterns.

02

DEVELOPER TOOLS

Developer tooling

Command-line utilities and repository diagnostics, including dependency analysis and secret scanning.

03

BACKEND & DATA

Backend & data workflows

Application logic, API integrations, relational data modeling, and project intake workflows.

04

QUALITY & DELIVERY

Quality & delivery

Automated tests and continuous integration to make changes repeatable and catch issues earlier.

PROCESS

From concept to launch.

01

Discover

We understand your idea, goals, users, and business requirements.

02

Plan

We define the scope, user experience, technical approach, and roadmap.

03

Build

We turn the plan into a functional and polished digital product.

04

Launch

We prepare the product for production and help move it forward.

Selected projects

Digital products and experiences, built to solve practical problems.

01

DEVELOPER TOOL / NPM

Lumen CLI

A command-line diagnostics utility for repository risks, dependency analysis, and secret scanning.

NODE.JS · COMMANDER · VITEST · TSUP

02

BEAUTY E-COMMERCE

FirstMate Beauty

A customer-facing beauty commerce website included in the studio's selected work.

[firstmatebeauties.com](#)

03

RETAIL E-COMMERCE

KingJess

An online retail storefront representing a customer-facing shopping experience.

[kingjess.com](#)

04

ADDITIONAL SELECTED WORK

More digital experiences

Further examples from retail and training, presented without unverified claims about implementation.

UNDER ARMOUR INDONESIA

[underarmour.co.id](#)

TREASURE TRAINING

[treasuretraining.com](#)

SELECTED WORK

Clear structure. Practical engineering. Useful outcomes.

A clear path to working together

Flexible engagement models, aligned to your goals and delivery needs.

THE YF LABS CONCEPT

From Idea to Ship.

Clear planning, practical engineering, and continuous refinement turn ideas into useful digital products.

ENGAGEMENT MODELS

01

Fixed-scope delivery

A defined website, MVP, or product module with agreed milestones.

02

Engineering retainer

Ongoing sprint-based support as product priorities evolve.

03

Audit & modernization

A focused review of maintainability, performance, and upgrades.

HOW WE WORK

A simple, transparent workflow.

01

Align

Goals, audience, and scope.

02

Shape

Plan experience and approach.

03

Deliver

Build, test, and integrate.

04

Improve

Refine with feedback.

LET'S TALK ABOUT YOUR NEXT PROJECT

Bring the idea. We'll shape the solution.

Share the goal, the challenge, and what success looks like.
